Guidance for Completing Paperwork

*Please help us by ensuring the correct paperwork is fully completed for each load/
container(Annex VII)*

ANNEX VII: Regulation (EC) 1013 / 2006

The above regulation came into force on 12th July 2007. Under this regulation, an Annex VII document must be present by commencement of the transport, completed in full by both the person who arranges the shipment, as well as the supplier of the material. Panda will provide Annex VII documentation that must be completed for each load, to allow a smooth transition between port of origin and port of destination, and to comply with regulations.

(NOTE: If you fail to provide a completed Annex VII with the container, the shipment may be considered illegal by the relevant authority and you will be held responsible for any and all costs associated with this failure.)

Panda Recycling will be arranging shipments of your waste in accordance with this regulation and will provide Annex VII documents for all exports (loaded in containers).

Before commencing to load, please ensure that you have the correct Annex VII for the order/grade. Please secure that the unique order number of the specific order (preference order number Panda) as reference number is visible on the Annex VII.

Registered Waste trade- and broker according to German law § 53 KRWG No. : ZNLE5M702

Registered Waste trade- and broker according to Dutch law VIHB No.: ZH518399XXHB
