

Panda® recycling b.v.

Guidance for Export out of the EU

*Please help us by ensuring the pictures of the material show **clean and tidy and well-presented bales at all stages of the loading process.***

Please submit the photos for every container, without fail, within 24 hours of loading by email to: info@pandarecycling.com

Foreign Customs are operating a 100% achievement policy on photographs submitted for approval for material entering the country, therefore it is mandatory that digital photographs are taken of the material and loading process. It is important that we comply with these requirements in order to avoid any potential problems or costs. With this in mind, please inform loading staff that the following photographs need to be submitted as per above instructions, as failure to do so will result in containers being sent back to site, as the container will not be accepted into the foreign country.

The following photos must be taken of each container:

- 1st container opened and empty showing clearly the number of container.

PASSION FOR PAPER & PLASTICS

Panda[®]recycling b.v.

- 2nd container half loaded showing clearly the material and the number of container.

- 3rd container full loaded showing clearly the material and the number of container.

PASSION FOR PAPER & PLASTICS

Panda[®]recycling b.v.

- 4th container full loaded with right side door closed showing clearly the material and the number of container.

- 5th container closed with a zoomed view of the seal, clear showing the seal number.

PASSION FOR PAPER & PLASTICS

Panda[®]recycling b.v.

We would like to thank all of our suppliers for their co-operation with this.

Kind Regards

Pieter Borsje
