Guidance for Export Photographs to Europe

Please submit the photos for every container, without fail, within 24 hours of loading by email to: info@pandarecycling.com

We appreciate your help and service to send your digital photographs to us directly after loading of the containers.

Local customs from the exporting and importing country are operating nowadays more strict control regarding the flow of goods exported- or imported from/into their country.

Therefore local- and foreign Customs are operating more and more a 100% achievement policy on photographs submitted for approval for material leaving or entering their country, therefore it is mandatory that digital photographs are taken of the material and loading process.

It is important that we comply with these requirements in order to avoid any potential problems or costs. With this in mind, please inform loading staff that the following photographs need to be submitted as per above instructions, as failure to do so can result in containers being sent back to site, as the container will not be accepted into the foreign country.

PASSION FOR PAPER & PLASTICS

Panda[®]recycling b.v.

The following photos must be taken of each container:

- 1st container half loaded showing clearly the material and the number of container.

PASSION FOR PAPER & PLASTICS

Panda[®]recycling b.v.

- 2nd container closed with a zoomed view of the seal, clear showing the seal number.

We would like to thank you for your co-operation with this.

Kind Regards

Pieter Borsje
